

**REMARKS**

The Response to Arguments section beginning on page 8 of the present Office action is not fully and clearly stated and should therefore be reconsidered. The MPEP states that, “[w]here a claim is refused for any reason relating to the merits thereof it should be "rejected" and the ground of rejection fully and clearly stated....”<sup>1</sup> The following incomplete phrase appears on page 9, at line 19 of the present Office action: “With regard to the claimed weight percents, the examiner points out that”

It is respectfully requested that the Office action dated April 16, 2007 be withdrawn and that a complete action be issued.
